Dear Mr. Wiseman:

STAT
STAT
STAT

On behalf of the Intelligence Community Staff I want to express our appreciation for the excellent support that we have received from [redacted] during the development and operation of the Capabilities Programming and Budgeting System (CPBS) over the past two years. [redacted] efforts as project manager and lead programmer have been instrumental in designing and implementing a system which has the potential to improve greatly the process by which Community elements develop and defend the DCI's annual budget for the National Foreign Intelligence Program.

STAT

Particularly extraordinary are the range of skills that [redacted] has exhibited in this project. In the technical arena, not only has he utilized his in-depth expertise in the Model 204 computer language to develop a system which successfully integrates electronic mail and data base functions, but he has also demonstrated considerable ability to acquire and apply new knowledge in the areas of communications protocols and the use of Wang office automation equipment. His ingenuity in combining skills from all of these areas has been crucial to the success of the effort.

STAT

Equally as important as his technical competence, [redacted] has routinely demonstrated a highly professional attitude and flexibility that make working with him an enjoyable experience for all members of the development team. His conscientious, "can do" attitude and willingness to make changes that become necessary as the system evolves are commendable.

STAT

STAT

In short, I believe that [redacted] has demonstrated an exceptional combination of technical and managerial skills during this project that deserve special recognition. Please pass on our appreciation for a job well done. [redacted] efforts reflect very favorably not only on himself but the entire National Security Agency.

STAT

Sincerely,

[redacted]
Chief, Evaluation Division
Program and Budget Staff
